Questions? Contact Megan Otto 215-997-9797 Ext. 107

## The Axel Program

What is an Axel? An Axel is the hardest single jump in figure skating. It consists of one and a half rotations and has a forward take off. The forward take off can be intimidating for skaters. The axel is typically a skater's first major roadblock in terms of jumps. Some skaters may work on this jump for years while others achieve it rather quickly.

US Figure Skating recommends introducing the axel as early as Freeskate 3. This program will teach preparation techniques on and off ice as well as actually working on the jump. Skaters who successfully land the jump will be recognized with a badge and a certificate. Their name will also be submitted to US Figure Skating! Landing your first axel is a HUGE deal and this program hopes to help develop a lot more axels!!

## Eligibility

The Axel Program is open to any skater currently enrolled in or passed FREESKATE 3.

## Instructor:Skater

The Axel Program will accept the first 12 applicants per class time meeting the skill level criteria and will be instructed by the talented and energetic staff from the Skating School at Hatfield Ice.

## Location

The Axel Program will be conducted at  
Hockey Heaven  
840 Bethlehem Pike  
Colmar PA, 18915
